Library summary

The CCO FR Component Library contains **35 components** organized in **7 categories**, built by the Solution Engineering France team. All components are industry-neutral, bilingual (FR/EN), and drop on any Salesforce demo org.

Category definitions

- **Transverse** (8) — Cross-persona components usable on any page or object (Activity Feed, Record Highlights, Banners, Related Cards, Contact Card, Files Gallery, Contacts Carousel).
- **Productivity** (5) — Task management, calendar, AI prompts, recommendations and timelines — tools that make any rep more efficient.
- **Sales** (5) — Account-centric sales components: health score, strategy plan, pipeline, order entry, customer orders.
- **Service** (5) — Case and service-oriented components: kanban, alerts, order summary, service contracts, subscribers list.
- **Marketing** (4) — Marketing and Data Cloud components: segments, consent, engagement history, customer sales summary.
- **Dashboards & KPIs** (5) — Full-page home dashboards and metric tiles for Field Sales, Telesales, and management.
- **Geo & Field** (3) — Map and geolocation components for field reps: nearby accounts, territory map, voice notes.

Canonical component table

How to read this table: every row is a real component. Names follow the `seFr*` convention and are the only valid component identifiers. When asked "what components are there?", list rows from this table. Per-component details live further down.

API NAME	MASTER LABEL	TAGLINE	CATEGORY	PERSONAS	SURFACES	OBJECTS	DATA MODE
seFrActivityFeed	CCO FR - Activity Feed	Unified activity timeline aggregating 16+ Salesforce record types in a single feed with rich filtering.	Transverse	Sales, FieldSales, Telesales, Service, Marketing	RecordPage	Account, Contact	live
seFrAgentforceHeader	CCO FR - Agentforce Header	Astro-themed Home page header with a search / dictation box that forwards questions to the Agentforce panel.	Transverse	All	HomePage	Any	mock
seFrContactCard	CCO FR - Contact Card	Visual contact card with animated waves, avatar, address, configurable gauges and optional Einstein prompt summary.	Transverse	Sales, FieldSales, Telesales, Service, Marketing	RecordPage	Contact, Account, Case, Opportunity, Order, Lead	hybrid
seFrContactsCarousel	CCO FR - Contacts Carousel	Horizontal carousel of an Account's Contacts with avatars, role badges and quick Email / Call actions.	Transverse	Sales, FieldSales, Telesales, Service, Marketing	RecordPage	Account	live
seFrFilesGallery	CCO FR - Files Gallery	Visual gallery of files attached to any record with image thumbnails, doctype icons and drag-and-drop upload.	Transverse	Sales, FieldSales, Telesales, Service, Marketing	RecordPage	Any	live
seFrRecordHighlights	CCO FR - Record Highlights	Custom highlights panel with round image, key fields and action buttons, working on 8 standard objects.	Transverse	All	RecordPage	Account, Contact, Opportunity, Case, Lead, Order, Contract, Quote	live
seFrRelatedRecordCard	CCO FR - Related Record Card	Vertical sidebar card showing the counterpart record (Contact / Account) with key fields and avatar.	Transverse	Sales, FieldSales, Telesales, Service, Marketing	RecordPage	Account, Contact, Case, Opportunity, Order	live
seFrSplashBanner	CCO FR - Splash Banner	Welcome banner with 8 animated background styles (waves, aurora, mesh, orbs, conic, geometric, constellation, grid) in pure CSS / SVG.	Transverse	All	AppPage, HomePage, RecordPage	Any	mock
seFrMyEvents	CCO FR - My Events	Today's calendar as a compact vertical timeline that fits a sidebar column, with	Productivity	All	AppPage, HomePage, RecordPage	Any	live

API NAME	MASTER LABEL	TAGLINE	CATEGORY	PERSONAS	SURFACES	OBJECTS	DATA MODE
		Google-Calendar-style overlap.					
seFrMyTasks	CCO FR - My Tasks	Compact 'My Tasks' sidebar panel grouped by due date with one-click completion.	Productivity	All	AppPage, HomePage, RecordPage	Any	live
seFrPromptLauncher	CCO FR - Prompt Launcher	Configurable AI panel running Salesforce Prompt Templates via Invocable Actions, with auto-filled record context.	Productivity	All	AppPage, HomePage, RecordPage	Any	live
seFrSmartRecommendations	CCO FR - Smart Recommendations	Context-aware Next Best Action panel with 1-6 recommendations, relevance score and per-card overrides.	Productivity	Sales, FieldSales, Telesales, Service, Marketing	RecordPage	Account, Contact, Case, Order	mock
seFrTimelinePhases	CCO FR - Timeline Phases	Horizontal multi-phase timeline with date axis, 'Today' marker and done / pending state per phase.	Productivity	Sales	AppPage, HomePage, RecordPage	Any	mock
seFrAccountHealth	CCO FR - Account Health	Quantitative account health score (0-100) with verdict level and weighted positive / negative signals.	Sales	Sales	RecordPage	Account	live
seFrAccountStrategyPlan	CCO FR - Account Strategy Plan	Narrative account plan with editable KPIs, target gauge, SWOT 2x2 and quarterly action plan.	Sales	Sales	RecordPage	Account	mock
seFrCustomerOrders	CCO FR - Customer Orders	Last order detail card plus searchable, sortable, filterable order history for an Account or Contact.	Sales	Sales, Telesales	RecordPage	Account, Contact	live
seFrOrderEntry	CCO FR - Order Entry	Full-grid order entry on an Account or Case with stock, AI-recommended quantities and discounts, persisted as real Order records.	Sales	Telesales	RecordPage	Account, Case	live
seFrPipelineSnapshot	CCO FR - Pipeline Snapshot	Account-level pipeline visualization with summary tiles and one column per Opportunity stage.	Sales	Sales	RecordPage	Account, Opportunity	live

API NAME	MASTER LABEL	TAGLINE	CATEGORY	PERSONAS	SURFACES	OBJECTS	DATA MODE
seFrAlertsRibbon	CCO FR - Alerts Ribbon	Configurable alerts ribbon combining declarative record-driven rules with always-on static banners.	Service	Sales, Service	AppPage, HomePage, RecordPage	Account, Contact, Case, Opportunity, Lead, Order, Contract	mock
seFrKanbanBoard	CCO FR - Kanban Board	Generic kanban board with native drag & drop on any whitelisted SObject (Case, Opp, Lead, Order, Task, Account).	Service	Service, Telesales	AppPage, HomePage, RecordPage	Any	live
seFrOrderSummary	CCO FR - Order Summary	Most recent Order linked to a Case with products, total, delivery info and edit / delete / submit actions.	Service	Service	RecordPage	Case	live
seFrServiceContracts	CCO FR - Service Contracts	Active service contracts per Account with deadline countdown, trade badge, SLA and open work order counter.	Service	Service, FieldSales	RecordPage	Account	live
seFrSubscribersList	CCO FR - Subscribers List	Live account team panel with profile photos, roles and record navigation.	Service	Service, FieldSales, Sales	AppPage, HomePage, RecordPage	Any	live
seFrActiveSegments	CCO FR - Active Segments	Compact panel showing the marketing / Data Cloud segments the record belongs to, as colored badges.	Marketing	Marketing	AppPage, HomePage, RecordPage	Any	mock
seFrConsentManager	CCO FR - Consent Manager	Per-channel GDPR consent toggle panel binding each channel to a boolean field on the current record.	Marketing	Marketing, Service	RecordPage	Contact, Lead, Account	live
seFrCustomerSalesSummary	CCO FR - Customer Sales Summary	B2C-leaning sales summary with KPI tiles and breakdowns by Category, Brand and Store.	Marketing	Retail, Marketing	RecordPage	Contact, Account	mock
seFrEngagementHistory	CCO FR - Engagement History	Configurable marketing engagement timeline with colored typed icons and inline search.	Marketing	Marketing, Sales	AppPage, HomePage, RecordPage	Lead, Contact, Account	mock
seFrFieldRepHome	CCO FR - Field Sales - Rep Home	Field Sales rep home page with greeting, KPIs, priority accounts, hot leads, product	Dashboards & KPIs	FieldSales	AppPage, HomePage	Any	hybrid

API NAME	MASTER LABEL	TAGLINE	CATEGORY	PERSONAS	SURFACES	OBJECTS	DATA MODE
		penetration and campaign calendar.					
seFrKpiLauncher	CCO FR - KPI Launcher	Configurable grid of 3-6 clickable KPI tiles with icon, value, color and link, ready out of the box.	Dashboards & KPIs	All	AppPage, HomePage, RecordPage	Any	mock
seFrMetricTile	CCO FR - Metric Tile	Single-metric tile with 4 chart styles (line / area / bar / mini-donut), comparison series, target line and currency formatting.	Dashboards & KPIs	Sales, FieldSales, Telesales, Service, Marketing	AppPage, HomePage, RecordPage	Any	mock
seFrRevenueDashboard	CCO FR - Revenue Dashboard	3-year revenue mini-dashboard with KPI tiles and a side-by-side monthly bar chart.	Dashboards & KPIs	Sales, FieldSales, Telesales	RecordPage	Account	mock
seFrTelesalesRepHome	CCO FR - Telesales - Rep Home	Telesales rep home page with KPIs, live cases and orders tables, calls to make and 3 mini charts.	Dashboards & KPIs	Telesales	AppPage, HomePage	Any	hybrid
seFrNearbyAccountsMap	CCO FR - Nearby Accounts Map	Interactive map of nearby accounts using the browser's geolocation with Haversine distance sort.	Geo & Field	FieldSales	AppPage, HomePage	Any	live
seFrTerritoryMap	CCO FR - Territory Map	Interactive territory map with geocoded Accounts, pipeline color coding, sidebar filters and CSV export.	Geo & Field	FieldSales, Sales	AppPage, HomePage	Any	live
seFrVoiceNoteTaker	CCO FR - Voice Note Taker	Dictate a voice note via the Web Speech API and save it as a completed Task linked to the current record.	Geo & Field	FieldSales	RecordPage	Account, Contact, Lead, Opportunity	live

Cookbook recipes

Pre-built component bundles for typical demo scenarios. Each recipe groups components that work well together on the same page or persona context.

Account 360°

Drop-in record page for B2B Sales — highlights, health gauge, pipeline, activity timeline, contacts carousel, related records and AI recommendations.

Primary persona: Sales

- seFrRecordHighlights — Record Highlights
- seFrAccountHealth — Account Health

- `seFrPipelineSnapshot` — Pipeline Snapshot
- `seFrActivityFeed` — Activity Feed
- `seFrContactsCarousel` — Contacts Carousel
- `seFrRelatedRecordCard` — Related Record Card
- `seFrSmartRecommendations` — Smart Recommendations

Field Sales cockpit

Mobile-first Home page for reps in the field — map, agenda, tasks, voice notes and KPIs.

Primary persona: FieldSales

- `seFrFieldRepHome` — Field Sales - Rep Home
- `seFrNearbyAccountsMap` — Nearby Accounts Map
- `seFrTerritoryMap` — Territory Map
- `seFrMyEvents` — My Events
- `seFrMyTasks` — My Tasks
- `seFrVoiceNoteTaker` — Voice Note Taker
- `seFrKpiLauncher` — KPI Launcher

Service desk

Case-centric record page with service contracts, account team, order history, kanban, alerts and smart actions.

Primary persona: Service

- `seFrAlertsRibbon` — Alerts Ribbon
- `seFrServiceContracts` — Service Contracts
- `seFrSubscribersList` — Subscribers List
- `seFrCustomerOrders` — Customer Orders
- `seFrOrderSummary` — Order Summary
- `seFrKanbanBoard` — Kanban Board
- `seFrSmartRecommendations` — Smart Recommendations

Agentforce demo

Showcase page tuned for AI-driven scenarios — hero banner, prompt launcher, and recommendations.

Primary persona: Agents

- `seFrAgentforceHeader` — Agentforce Header
- `seFrPromptLauncher` — Prompt Launcher
- `seFrSmartRecommendations` — Smart Recommendations
- `seFrSplashBanner` — Splash Banner

Marketing 360°

Contact-centric page with engagement history, consent management, segment membership and signals.

Primary persona: Marketing

- `seFrActiveSegments` — Active Segments
- `seFrConsentManager` — Consent Manager
- `seFrEngagementHistory` — Engagement History
- `seFrActivityFeed` — Activity Feed
- `seFrCustomerSalesSummary` — Customer Sales Summary

Full pack

All components in one go — for when you want everything pre-loaded.

Primary persona: All

Every component in the library (35 total).

Component · Activity Feed (`seFrActivityFeed`)

API name: `seFrActivityFeed` · **Category:** Transverse · **Surfaces:** RecordPage · **Objects:** Account, Contact · **Data mode:** live · **Mobile-ready:** No · **Apex:** `SE_FR_ActivityFeedController` · **Status:** stable

Tagline: Unified activity timeline aggregating 16+ Salesforce record types in a single feed with rich filtering.

Personas: Sales, FieldSales, Telesales, Service, Marketing

Feature highlights: 16+ record types unified Rich filters + expand Per-source error isolation

SE Benefit / Pitch

Pulls from `Task`, `Event`, `EmailMessage`, `VoiceCall`, `MessagingSession`, `LiveChatTranscript`, `Order`, `Case`, `Opportunity`, `Quote`, `Contract`, `Visit`, `ContentDocumentLink`, `FeedItem`, `SurveyResponse` — and uses business-meaningful dates (CloseDate, EffectiveDate, StartDate) instead of CreatedDate.

Key properties

- Days back / forward window
- Include related contacts
- Object types displayed

Technical details

DATA MODE	live
MOBILE-READY	No
SURFACES (TARGETS)	RecordPage
OBJECTS	Account, Contact
APEX DEPENDENCIES	SE_FR_ActivityFeedController
RELEASE STATUS	stable
ORIGINAL AUTHOR	Lionel Braun

Component · Agentforce Header (`seFrAgentforceHeader`)

API name: `seFrAgentforceHeader` · **Category:** Transverse · **Surfaces:** HomePage · **Objects:** Any · **Data mode:** mock · **Mobile-ready:** Yes · **Apex:** None · **Status:** stable

Tagline: Astro-themed Home page header with a search / dictation box that forwards questions to the Agentforce panel.

Personas: All

Feature highlights: Astro floating header Voice dictation Triggers Agentforce panel

SE Benefit / Pitch

Speech-to-text via the browser API — speak a question, click "Send", and the transcribed text lands in your clipboard. Paste it into the standard Agentforce panel for a fluid AI demo entry. (No real Agentforce integration — the UI fakes the gesture.)

Key properties

- Title / subtitle
- CTA label + URL
- Astro animation toggle

Technical details

DATA MODE	mock
MOBILE-READY	Yes
SURFACES (TARGETS)	HomePage
OBJECTS	Any
APEX DEPENDENCIES	None
RELEASE STATUS	stable

Component · Contact Card (`seFrContactCard`)

API name: seFrContactCard · **Category:** Transverse · **Surfaces:** RecordPage · **Objects:** Contact, Account, Case, Opportunity, Order, Lead · **Data mode:** hybrid · **Mobile-ready:** Yes · **Apex:** SE_FR_ContactCardController, SE_FR_ImageFileController · **Status:** new

Tagline: Visual contact card with animated waves, avatar, address, configurable gauges and optional Einstein prompt summary.

Personas: Sales, FieldSales, Telesales, Service, Marketing

Feature highlights: Wow-effect animated waves Optional Einstein summary Up to 3 gauges Inline avatar upload

SE Benefit / Pitch

Built-in "Summarize" button using the SDO-shipped contact-summary prompt — drop on a Contact / Case / Account page and you get an AI inline summary out of the box. Click the avatar to upload a contact photo (no schema work required).

Key properties

- Up to 3 gauges (label, field, icon, lower/higher-better semantics)
- Image · URL field OR click-to-upload File
- Customer ID line (toggle + field)
- Animated wave colors / theme accent
- Einstein prompt summary · default `einstein\_gpt\_summarizeContact` (the SDO-shipped template, not a true Salesforce standard)

Technical details

DATA MODE	hybrid
MOBILE-READY	Yes
SURFACES (TARGETS)	RecordPage
OBJECTS	Contact, Account, Case, Opportunity, Order, Lead
APEX DEPENDENCIES	SE_FR_ContactCardController, SE_FR_ImageFileController
RELEASE STATUS	new
ORIGINAL AUTHOR	Charly Ansel

Component · Contacts Carousel (seFrContactsCarousel)

API name: seFrContactsCarousel · **Category:** Transverse · **Surfaces:** RecordPage · **Objects:** Account · **Data mode:** live · **Mobile-ready:** No · **Apex:** SE_FR_ContactsCarouselController · **Status:** stable

Tagline: Horizontal carousel of an Account's Contacts with avatars, role badges and quick Email / Call actions.

Personas: Sales, FieldSales, Telesales, Service, Marketing

Feature highlights: Champion / DMU role badges Initials avatar fallback Email & Call shortcuts

SE Benefit / Pitch

Visual replacement for the standard Contacts related list — much more demo-friendly than a flat table.

Key properties

- Visible contact count
- Card field list
- Quick actions

Technical details

DATA MODE	live
MOBILE-READY	No
SURFACES (TARGETS)	RecordPage
OBJECTS	Account
APEX DEPENDENCIES	SE_FR_ContactsCarouselController
RELEASE STATUS	stable

Component · Files Gallery (`seFrFilesGallery`)

API name: `seFrFilesGallery` · **Category:** Transverse · **Surfaces:** `RecordPage` · **Objects:** Any · **Data mode:** live · **Mobile-ready:** Yes · **Apex:** `SE_FR_FilesGalleryController` · **Status:** new

Tagline: Visual gallery of files attached to any record with image thumbnails, doctype icons and drag-and-drop upload.

Personas: Sales, FieldSales, Telesales, Service, Marketing

Feature highlights: [Image thumbs + doctype icons](#) [Drag & drop upload](#) [Click-to-preview](#)

SE Benefit / Pitch

Real image thumbnails (not just generic doctype icons) — pull product photos, brand assets, contracts. Drag-drop upload zone is custom-built (not the native 'lightning-file-upload') so the layout looks clean in narrow sidebar columns.

Key properties

- Max files, visible count in carousel
- Show / hide upload + delete buttons

Technical details

DATA MODE	live
MOBILE-READY	Yes
SURFACES (TARGETS)	RecordPage
OBJECTS	Any
APEX DEPENDENCIES	SE_FR_FilesGalleryController
RELEASE STATUS	new
ORIGINAL AUTHOR	Lionel Braun

Component · Record Highlights (`seFrRecordHighlights`)

API name: `seFrRecordHighlights` · **Category:** Transverse · **Surfaces:** `RecordPage` · **Objects:** Account, Contact, Opportunity, Case, Lead, Order, Contract, Quote · **Data mode:** live · **Mobile-ready:** Yes · **Apex:** `SE_FR_RecordHighlightsController`, `SE_FR_ImageFileController` · **Status:** stable

Tagline: Custom highlights panel with round image, key fields and action buttons, working on 8 standard objects.

Personas: All

Feature highlights: [Inline image upload](#) [Works on 8 objects](#) [Configurable field strip](#)

SE Benefit / Pitch

Click the avatar to upload / replace the image instantly — no static resource, no public URL hosting, no custom field. The image is saved as a File on the record.

Key properties

- ``language`` · en / fr
- ``recordSource`` · current / parent
- ``accountFieldsList``, ``contactFieldsList``
- ``imageFieldApiName`` · URL field on the record
- ``maxQuickActions`` · loaded from layout

Technical details

DATA MODE	live
MOBILE-READY	Yes
SURFACES (TARGETS)	RecordPage
OBJECTS	Account, Contact, Opportunity, Case, Lead, Order, Contract, Quote
APEX DEPENDENCIES	SE_FR_RecordHighlightsController, SE_FR_ImageFileController
RELEASE STATUS	stable
ORIGINAL AUTHOR	Lionel Braun

Component · Related Record Card (`seFrRelatedRecordCard`)

API name: `seFrRelatedRecordCard` · **Category:** Transverse · **Surfaces:** RecordPage · **Objects:** Account, Contact, Case, Opportunity, Order · **Data mode:** live · **Mobile-ready:** Yes · **Apex:** SE_FR_RelatedRecordCardController, SE_FR_ImageFileController · **Status:** stable

Tagline: Vertical sidebar card showing the counterpart record (Contact / Account) with key fields and avatar.

Personas: Sales, FieldSales, Telesales, Service, Marketing

Feature highlights: [Auto picks counterpart](#) [Person Account aware](#) [Empty-state fallback](#)

SE Benefit / Pitch

Click the avatar to upload an image for the related record — handy for setting an Account logo or a Contact picture without leaving the page. Default Contact image field ``SDO_Cust360_Contact_Picture_URL__c`` works out-of-box on SDO.

Key properties

- ``target`` · auto / account / contact
- ``fieldsCsv`` per target
- Per-target image field (Contact + Account)

Technical details

DATA MODE	live
MOBILE-READY	Yes
SURFACES (TARGETS)	RecordPage
OBJECTS	Account, Contact, Case, Opportunity, Order
APEX DEPENDENCIES	SE_FR_RelatedRecordCardController, SE_FR_ImageFileController
RELEASE STATUS	stable
ORIGINAL AUTHOR	Lionel Braun

Component · Splash Banner (`seFrSplashBanner`)

API name: `seFrSplashBanner` · **Category:** Transverse · **Surfaces:** AppPage, HomePage, RecordPage · **Objects:** Any · **Data mode:** mock · **Mobile-ready:** Yes · **Apex:** None · **Status:** new

Tagline: Welcome banner with 8 animated background styles (waves, aurora, mesh, orbs, conic, geometric, constellation, grid) in pure CSS / SVG.

Personas: All

Feature highlights: [8 animated styles](#) [Pure CSS / SVG](#) [Respects reduced-motion](#)

SE Benefit / Pitch

8 distinct visual moods — pick "Constellation" or "Conic" for AI demos, "Waves" for sober customer-success vibes, "Aurora" for premium / luxury. No images / static resources to upload.

Key properties

- Title, subtitle, text size, alignment
- Background style (8 options)
- 3 colors (primary / secondary / tertiary)
- Height, animation speed
- Optional CTA button

Technical details

DATA MODE	mock
MOBILE-READY	Yes

Component · My Events (`seFrMyEvents`)

API name: `seFrMyEvents` · **Category:** Productivity · **Surfaces:** AppPage, HomePage, RecordPage · **Objects:** Any · **Data mode:** live · **Mobile-ready:** No · **Apex:** SE_FR_AgendaController · **Status:** stable

Tagline: Today's calendar as a compact vertical timeline that fits a sidebar column, with Google-Calendar-style overlap.

Personas: All

Feature highlights: [Side-by-side overlap](#) [Auto-trims empty hours](#) [Compact today view](#)

SE Benefit / Pitch

Useful in both Field Sales (today's appointments) and as a transversal "agenda" widget on any persona's Home Page.

Key properties

- Days forward
- Show / hide attendees, location
- Card title override

Technical details

DATA MODE	live
MOBILE-READY	No
SURFACES (TARGETS)	AppPage, HomePage, RecordPage
OBJECTS	Any
APEX DEPENDENCIES	SE_FR_AgendaController

Component · My Tasks (`seFrMyTasks`)

API name: `seFrMyTasks` · **Category:** Productivity · **Surfaces:** AppPage, HomePage, RecordPage · **Objects:** Any · **Data mode:** live · **Mobile-ready:** Yes · **Apex:** SE_FR_AgendaController · **Status:** stable

Tagline: Compact 'My Tasks' sidebar panel grouped by due date with one-click completion.

Personas: All

Feature highlights: [Grouped by due date](#) [One-click complete](#) [Overdue highlighting](#)

SE Benefit / Pitch

Same controller as My Events (single Apex class for both) — guarantees consistent date logic and shared maintenance.

Key properties

- Days back / forward
- Show / hide priority chip
- Card title override

Technical details

DATA MODE	live
MOBILE-READY	Yes
SURFACES (TARGETS)	AppPage, HomePage, RecordPage

ORIGINAL AUTHOR	Lionel Braun

Component · Prompt Launcher (seFrPromptLauncher)

API name: seFrPromptLauncher · **Category:** Productivity · **Surfaces:** AppPage, HomePage, RecordPage · **Objects:** Any · **Data mode:** live · **Mobile-ready:** No · **Apex:** SE_FR_PromptLauncherController · **Status:** new

Tagline: Configurable AI panel running Salesforce Prompt Templates via Invocable Actions, with auto-filled record context.

Personas: All

Feature highlights: Pill switcher per prompt Auto-fills record context Save as Note HTML-formatted output

SE Benefit / Pitch

Default catalogue covers Account / Contact / Opportunity / Lead / Case summaries + free-text Summarize/Refine — drop on any record page, the right prompt shows up automatically. Save as Note attaches the AI output to the record in one click.

Key properties

- `promptsJson` · catalogue (apiName, label, icon, objects[], userInputs[], extraInputs)
- Auto record-type filtering (Account → Account summary, Home → free-text prompts)
- Auto-detect HTML / Markdown response · dynamic height
- `autoRunFirstPrompt` · trigger AI on page load
- `resultAccent` · blue / purple / green · `maxHeight` · optional cap
- `namedCredential` · default `Agentforce\_API`

Technical details

Component · Smart Recommendations (seFrSmartRecommendations)

API name: seFrSmartRecommendations · **Category:** Productivity · **Surfaces:** RecordPage · **Objects:** Account, Contact, Case, Order · **Data mode:** mock · **Mobile-ready:** Yes · **Apex:** None · **Status:** stable

Tagline: Context-aware Next Best Action panel with 1-6 recommendations, relevance score and per-card overrides.

Personas: Sales, FieldSales, Telesales, Service, Marketing

Feature highlights: Context-aware per object Relevance score badge Inline title & reason override

SE Benefit / Pitch

Default narratives are tuned for SDO-style sales scenarios. Plug an Einstein prompt template to flip the same UI into a real AI demo without rewiring the layout.

Key properties

- Recommendations CSV (label + reason + icon)
- Einstein prompt template (optional)

Technical details

DATA MODE	mock
MOBILE-READY	Yes
SURFACES (TARGETS)	RecordPage
OBJECTS	Account, Contact, Case, Order
APEX DEPENDENCIES	None

Component · Timeline Phases (seFrTimelinePhases)

API name: seFrTimelinePhases · **Category:** Productivity · **Surfaces:** AppPage, HomePage, RecordPage · **Objects:** Any · **Data mode:** mock · **Mobile-ready:** Yes · **Apex:** None · **Status:** stable

Tagline: Horizontal multi-phase timeline with date axis, 'Today' marker and done / pending state per phase.

Personas: Sales

Feature highlights: Date-axis layout 'Today' marker Done / pending state

SE Benefit / Pitch

Visualizes a journey or process state without needing custom objects or flows — type the phases directly in App Builder.

Key properties

- Up to 6 phases (label, date, status)
- Color theme

Technical details

DATA MODE	mock
MOBILE-READY	Yes
SURFACES (TARGETS)	AppPage, HomePage, RecordPage

Component · Account Health (seFrAccountHealth)

API name: seFrAccountHealth · **Category:** Sales · **Surfaces:** RecordPage · **Objects:** Account · **Data mode:** live · **Mobile-ready:** No · **Apex:** SE_FR_AccountHealthController · **Status:** stable

Tagline: Quantitative account health score (0-100) with verdict level and weighted positive / negative signals.

Personas: Sales

Feature highlights: SVG donut gauge Weighted +/- signals Drill-down explainability

SE Benefit / Pitch

Reads Cust360 SDO standard fields by default (e.g. churn risk, sentiment, NPS). On orgs without those fields, falls back to mocked signals — never crashes, always demo-ready.

Key properties

- Score field, signal fields (CSV)
- Color thresholds
- Card title override

Technical details

DATA MODE	live
MOBILE-READY	No

Component · Account Strategy Plan (seFrAccountStrategyPlan)

API name: seFrAccountStrategyPlan · **Category:** Sales · **Surfaces:** RecordPage · **Objects:** Account · **Data mode:** mock · **Mobile-ready:** No · **Apex:** None · **Status:** stable

Tagline: Narrative account plan with editable KPIs, target gauge, SWOT 2x2 and quarterly action plan.

Personas: Sales

Feature highlights: Inline edit every block Narrative SWOT 2x2 Quarterly action plan

SE Benefit / Pitch

Inline editable from the page — no record write. Great visual for "strategic-account" demo moments, even on bare orgs.

Key properties

- Section labels & default content
- Owner avatar override

Technical details

DATA MODE	mock
MOBILE-READY	No
SURFACES (TARGETS)	RecordPage

Component · Customer Orders (seFrCustomerOrders)

API name: seFrCustomerOrders · **Category:** Sales · **Surfaces:** RecordPage · **Objects:** Account, Contact · **Data mode:** live · **Mobile-ready:** No · **Apex:** SE_FR_CustomerOrdersController · **Status:** stable

Tagline: Last order detail card plus searchable, sortable, filterable order history for an Account or Contact.

Personas: Sales, Telesales

Feature highlights: Last order detail card Searchable + sortable Status filter + 'View all'

SE Benefit / Pitch

Renders product images per line — turns a plain list into a visual catalog reminiscent of an e-commerce order history. Compatible with SDO product image fields out of the box.

Key properties

- Max rows
- Filter by status / date range
- `productImageFieldApiName` · default `Image\_URL\_\_c`

Technical details

DATA MODE	live
MOBILE-READY	No

Component · Order Entry (seFrOrderEntry)

API name: seFrOrderEntry · **Category:** Sales · **Surfaces:** RecordPage · **Objects:** Account, Case · **Data mode:** live · **Mobile-ready:** No · **Apex:** SE_FR_OrderEntryController · **Status:** stable

Tagline: Full-grid order entry on an Account or Case with stock, AI-recommended quantities and discounts, persisted as real Order records.

Personas: Telesales

Feature highlights: AI-recommended qty + discount Live running total Persists real Order

SE Benefit / Pitch

Real product images appear in each row (read from `Product2.Image\_URL\_\_c` by default — works out-of-box on SDO). Reorder shortcut and stock visibility are visually striking demo moments.

Key properties

- Product columns (code, category, last order, stock, price)
- Currency code & symbol
- Order type defaults

Technical details

Component · Pipeline Snapshot (seFrPipeLineSnapshot)

API name: seFrPipelineSnapshot · **Category:** Sales · **Surfaces:** RecordPage · **Objects:** Account, Opportunity · **Data mode:** live · **Mobile-ready:** No · **Apex:** SE_FR_PipelineSnapshotController · **Status:** stable

Tagline: Account-level pipeline visualization with summary tiles and one column per Opportunity stage.

Personas: Sales

Feature highlights: Column per stage Weighted total tile Auto-derives from Opp

SE Benefit / Pitch

Sidebar-friendly width — fits the narrow right column without breaking. No setup needed: reads any open Opportunity on the Account.

Key properties

- Max opportunities, status filter
- Show / hide total
- Currency display

Component · Alerts Ribbon (seFrAlertsRibbon)

API name: seFrAlertsRibbon · **Category:** Service · **Surfaces:** AppPage, HomePage, RecordPage · **Objects:** Account, Contact, Case, Opportunity, Lead, Order, Contract · **Data mode:** mock · **Mobile-ready:** No · **Apex:** None · **Status:** new

Tagline: Configurable alerts ribbon combining declarative record-driven rules with always-on static banners.

Personas: Sales, Service

Feature highlights: Rule-driven + static 3 visual variants Sticky-on-scroll

SE Benefit / Pitch

Rule-driven mode evaluates a tiny DSL against the current record's fields ("AnnualRevenue<500000|warning|...") — drop on any record page, the right alert pops on the right account, no code.

Key properties

- `rulesCsv` · field-based rules (Record Page only)
- `staticAlertsCsv` · always-on alerts (any page)
- `visualStyle` · inline / card
- `alertVariant` · banner / solid / minimal
- `density` · comfortable / compact
- `stickyOnScroll`

Component · Kanban Board (`seFrKanbanBoard`)

API name: `seFrKanbanBoard` · **Category:** Service · **Surfaces:** AppPage, HomePage, RecordPage · **Objects:** Any · **Data mode:** live · **Mobile-ready:** No · **Apex:** `SE_FR_KanbanBoardController` · **Status:** new

Tagline: Generic kanban board with native drag & drop on any whitelisted SObject (Case, Opp, Lead, Order, Task, Account).

Personas: Service, Telesales

Feature highlights: Drag & drop status updates Auto-scope on Record Page Per-status swim lanes

SE Benefit / Pitch

Same component supports 6 SObjects — drop on a Home Page (all my open cases), an App Page (team kanban), or a Record Page (Account-scoped cases). Drag-drop instantly updates the status field.

Key properties

- Object type, status field
- Visible columns
- Card field list

Component · Order Summary (`seFrOrderSummary`)

API name: `seFrOrderSummary` · **Category:** Service · **Surfaces:** RecordPage · **Objects:** Case · **Data mode:** live · **Mobile-ready:** No · **Apex:** `SE_FR_OrderSummaryController` · **Status:** stable

Tagline: Most recent Order linked to a Case with products, total, delivery info and edit / delete / submit actions.

Personas: Service

Feature highlights: Auto-resolves Account Edit / delete / submit Activates Order on submit

SE Benefit / Pitch

Clean visual summary that a rep can read aloud during a call without scrolling — great for the "I'm reading you the order back" moment.

Key properties

- Show / hide line item details
- Currency display

- Separator label

Technical details

Component · Service Contracts (`seFrServiceContracts`)

API name: `seFrServiceContracts` · **Category:** Service · **Surfaces:** RecordPage · **Objects:** Account · **Data mode:** live · **Mobile-ready:** Yes · **Apex:** SE_FR_ServiceContractsController · **Status:** new

Tagline: Active service contracts per Account with deadline countdown, trade badge, SLA and open work order counter.

Personas: Service, FieldSales

Feature highlights: [Live Apex wire](#) [Deadline countdown](#) [Category badges](#) [Open WO counter](#)

SE Benefit / Pitch

Shows the full contractor landscape for an account in one glance - deadlines, SLAs, open interventions, contact emails. Ideal for Field Service, property management and B2B service demos.

Key properties

- Language (FR/EN)
- Card title override
- Card icon override

Component · Subscribers List (`seFrSubscribersList`)

API name: `seFrSubscribersList` · **Category:** Service · **Surfaces:** AppPage, HomePage, RecordPage · **Objects:** Any · **Data mode:** live · **Mobile-ready:** Yes · **Apex:** SE_FR_SubscribersListController · **Status:** new

Tagline: Live account team panel with profile photos, roles and record navigation.

Personas: Service, FieldSales, Sales

Feature highlights: [Live Apex wire](#) [Profile photos](#) [Role badges](#) [Multi-object](#)

SE Benefit / Pitch

Displays the team working on a record (Account owner, Opp team members) in one click - with photos, roles, and navigation to User profiles. Works out of the box on any SDO with no setup.

Key properties

- Language (FR/EN)
- Source mode (live/mock)
- Card title override

Component · Active Segments (seFrActiveSegments)

API name: seFrActiveSegments · **Category:** Marketing · **Surfaces:** AppPage, HomePage, RecordPage · **Objects:** Any · **Data mode:** mock · **Mobile-ready:** Yes · **Apex:** None · **Status:** stable

Tagline: Compact panel showing the marketing / Data Cloud segments the record belongs to, as colored badges.

Personas: Marketing

Feature highlights: Segment count in title Color-coded badges Record / App / Home page

SE Benefit / Pitch

Sets a marketing-aware tone on a Contact page without requiring a Data Cloud connection — props-driven storytelling.

Key properties

- Up to 6 segment slots (label, audience size, last-updated)

Technical details

Component · Consent Manager (seFrConsentManager)

API name: seFrConsentManager · **Category:** Marketing · **Surfaces:** RecordPage · **Objects:** Contact, Lead, Account · **Data mode:** live · **Mobile-ready:** Yes · **Apex:** None · **Status:** stable

Tagline: Per-channel GDPR consent toggle panel binding each channel to a boolean field on the current record.

Personas: Marketing, Service

Feature highlights: Per-channel toggles LDS persistence Inverted opt-out fields

SE Benefit / Pitch

Default channels map onto Salesforce standard fields: `HasOptedOutOfEmail`, `DoNotCall`, `HasOptedOutOfFax` (used as a stand-in for WhatsApp opt-out). Drop on Contact / Lead / Account → it just works, no custom field required.

Key properties

- Channels CSV (override) · format 'label|fieldName|inverted'
- Toggle / success / error label overrides
- Card title / icon override

Component · Customer Sales Summary (seFrCustomerSalesSummary)

API name: seFrCustomerSalesSummary · **Category:** Marketing · **Surfaces:** RecordPage · **Objects:** Contact, Account · **Data mode:** mock · **Mobile-ready:** No · **Apex:** None · **Status:** stable

Tagline: B2C-leaning sales summary with KPI tiles and breakdowns by Category, Brand and Store.

Personas: Retail, Marketing

Feature highlights: 3 KPI + 3 breakdown charts Category / Brand / Store Person Account compatible

SE Benefit / Pitch

Same component covers B2B and B2C scenarios — auto-detects Person Account vs. business Account and adapts the layout.

Key properties

- Time window
- Categories shown

Technical details

Component · Engagement History (seFrEngagementHistory)

API name: seFrEngagementHistory · **Category:** Marketing · **Surfaces:** AppPage, HomePage, RecordPage · **Objects:** Lead, Contact, Account · **Data mode:** mock · **Mobile-ready:** Yes · **Apex:** None · **Status:** new

Tagline: Configurable marketing engagement timeline with colored typed icons and inline search.

Personas: Marketing, Sales

Feature highlights: Timeline UI 8 event types Inline search Zero Apex

SE Benefit / Pitch

Demonstrates a Marketing Cloud-style engagement history without needing MCAE installed. Perfect for demos on scratch orgs or SDOs without Marketing Cloud connectivity.

Key properties

- Event types, emails, lists, ages (pipe-separated)
- Show/hide search (toggle icon)
- Card title override

Component · Field Sales - Rep Home (`seFrFieldRepHome`)

API name: `seFrFieldRepHome` · **Category:** Dashboards & KPIs · **Surfaces:** AppPage, HomePage · **Objects:** Any · **Data mode:** hybrid · **Mobile-ready:** No · **Apex:** `SE_FR_FieldSalesController` · **Status:** stable

Tagline: Field Sales rep home page with greeting, KPIs, priority accounts, hot leads, product penetration and campaign calendar.

Personas: FieldSales

Feature highlights: [Dynamic priority accounts](#) [Hot leads table](#) [Product-penetration bars](#) [Campaign calendar](#)

SE Benefit / Pitch

One Home page with all the field-sales context preloaded — no need to assemble 5 components on a custom App Page.

Key properties

- Number of tasks / events shown
- KPI tiles (label, value, target)
- Quick action links

Technical details

DATA MODE	hybrid
MOBILE-READY	No
SURFACES (TARGETS)	AppPage, HomePage

Component · KPI Launcher (`seFrKpiLauncher`)

API name: `seFrKpiLauncher` · **Category:** Dashboards & KPIs · **Surfaces:** AppPage, HomePage, RecordPage · **Objects:** Any · **Data mode:** mock · **Mobile-ready:** Yes · **Apex:** None · **Status:** stable

Tagline: Configurable grid of 3-6 clickable KPI tiles with icon, value, color and link, ready out of the box.

Personas: All

Feature highlights: [3 to 6 tiles](#) [Color-invert hover](#) [Internal & external links](#)

SE Benefit / Pitch

Most-tunable component in the library (40+ properties). Click-through targets let you stage navigation flows during a demo without writing a Flow or App Builder action.

Key properties

- Up to 8 tiles (label, value, trend %, target URL)
- Color accent per tile
- Layout (grid / horizontal)

Technical details

Component · Metric Tile (`seFrMetricTile`)

API name: `seFrMetricTile` · **Category:** Dashboards & KPIs · **Surfaces:** AppPage, HomePage, RecordPage · **Objects:** Any · **Data mode:** mock · **Mobile-ready:** Yes · **Apex:** None · **Status:** new

Tagline: Single-metric tile with 4 chart styles (line / area / bar / mini-donut), comparison series, target line and currency formatting.

Personas: Sales, FieldSales, Telesales, Service, Marketing

Feature highlights: 4 chart styles Forecast-vs-actual dashed Target line + goal donut Pure SVG ~3 KB

SE Benefit / Pitch

Compact tile, dashboard-ready — set `hideCardTitle = true` to stack 4 tiles in a row aligned. Mini-donut variant is the striking "85% to target" demo moment without configuring a real Performance Goal.

Key properties

- `chartStyle` · line / area / bar / mini-donut
- `seriesJson`, `secondarySeriesJson` (forecast vs actual)
- `targetValue` + dashed target line + chip
- `currentValue` + `currencyCode` · auto Intl format
- `scalingMode` · auto / from-zero / fixed

Technical details

DATA MODE	mock
MOBILE-READY	Yes
SURFACES (TARGETS)	AppPage, HomePage, RecordPage

Component · Revenue Dashboard (`seFrRevenueDashboard`)

API name: `seFrRevenueDashboard` · **Category:** Dashboards & KPIs · **Surfaces:** RecordPage · **Objects:** Account · **Data mode:** mock · **Mobile-ready:** No · **Apex:** None · **Status:** stable

Tagline: 3-year revenue mini-dashboard with KPI tiles and a side-by-side monthly bar chart.

Personas: Sales, FieldSales, Telesales

Feature highlights: 3 years side-by-side 3 KPI tiles Currency & scale options

SE Benefit / Pitch

Built-in YoY overlay — gives the "story" of growth or decline visually, without configuring a real Salesforce dashboard.

Key properties

- Months back, comparison year
- Bucket source field, currency code

Technical details

DATA MODE	mock
MOBILE-READY	No
SURFACES (TARGETS)	RecordPage
OBJECTS	Account
APEX DEPENDENCIES	None

Component · Telesales - Rep Home (seFrTeLesalesRepHome)

API name: seFrTeLesalesRepHome · **Category:** Dashboards & KPIs · **Surfaces:** AppPage, HomePage · **Objects:** Any · **Data mode:** hybrid · **Mobile-ready:** No · **Apex:** SE_FR_TelesalesController · **Status:** stable

Tagline: Telesales rep home page with KPIs, live cases and orders tables, calls to make and 3 mini charts.

Personas: Telesales

Feature highlights: Live cases & orders Calls-to-make queue 3 mini analytical charts

SE Benefit / Pitch

One template for Inside Sales Home — pre-composed, no need to wire 5 components manually in App Builder.

Key properties

- Number of calls shown
- KPI tiles
- Quick action links

Technical details

DATA MODE	hybrid
MOBILE-READY	No
SURFACES (TARGETS)	AppPage, HomePage
OBJECTS	Any
APEX DEPENDENCIES	SE_FR_TelesalesController

Component · Nearby Accounts Map (seFrNearbyAccountsMap)

API name: seFrNearbyAccountsMap · **Category:** Geo & Field · **Surfaces:** AppPage, HomePage · **Objects:** Any · **Data mode:** live · **Mobile-ready:** Yes · **Apex:** SE_FR_NearbyAccountsController · **Status:** stable

Tagline: Interactive map of nearby accounts using the browser's geolocation with Haversine distance sort.

Personas: FieldSales

Feature highlights: [Browser geolocation](#) [Haversine distance sort](#) [Custom pin styling](#)

SE Benefit / Pitch

Browser geolocation prompt for a "wow" moment in field demos. Falls back to a fixed origin (Place de la Bastille) when permission is denied — never breaks the demo.

Key properties

- Origin mode · auto geolocation / manual lat-lng
- Max accounts displayed, RecordType filter
- Highlight first account as priority

Technical details

DATA MODE	live
MOBILE-READY	Yes
SURFACES (TARGETS)	AppPage, HomePage
OBJECTS	Any

Component · Territory Map (`seFrTerritoryMap`)

API name: `seFrTerritoryMap` · **Category:** Geo & Field · **Surfaces:** AppPage, HomePage · **Objects:** Any · **Data mode:** live · **Mobile-ready:** No · **Apex:** `SE_FR_TerritoryMapController` · **Status:** stable

Tagline: Interactive territory map with geocoded Accounts, pipeline color coding, sidebar filters and CSV export.

Personas: FieldSales, Sales

Feature highlights: [Pipeline-tier color code](#) [Sidebar filters](#) [CSV export of view](#)

SE Benefit / Pitch

Pins are color-coded by open-pipeline tier (red top 20% / orange / green / grey) — instantly visualizes territory health. CSV export lets you pull the filtered list for follow-up reports.

Key properties

- Owner / RecordType / amount range / stages / case status
- 2 configurable picklist filters (Type, Industry by default)
- Map height, map / list ratio, default center (France)

Technical details

DATA MODE	live
MOBILE-READY	No
SURFACES (TARGETS)	AppPage, HomePage
OBJECTS	Any

Component · Voice Note Taker (`seFrVoiceNoteTaker`)

API name: seFrVoiceNoteTaker · **Category:** Geo & Field · **Surfaces:** RecordPage · **Objects:** Account, Contact, Lead, Opportunity ·
Data mode: live · **Mobile-ready:** Yes · **Apex:** SE_FR_VoiceNoteController · **Status:** stable

Tagline: Dictate a voice note via the Web Speech API and save it as a completed Task linked to the current record.

Personas: FieldSales

Feature highlights: Browser-native dictation Saves as Task Auto Whold / WhatId routing

SE Benefit / Pitch

Speech-to-text via the browser `SpeechRecognition` API — no Einstein / external service dependency. Demoable on any org as long as Chrome is the browser.

Key properties

- Auto-save vs review-first
- Transcript language

Technical details
